

SHIELD FOUNDATION REPAIR

YOU DESERVE BETTER

OUR STORY

Typically, the foundation repair and remediation business hasn't been known for customer service. We know. Shield was founded by people who have worked in the industry for decades. Creating another company just like everyone else wasn't going to be good enough. Today, every customer deserves to expect the people who work for them to be honest, reliable, fair, and respectful. The single word we want to come to mind when people ask about us is "professional". It's something we strive for every day.

Shield Foundation Repair is a better customer experience. From the first time you call to the day we finish; we'll take care of you. We'll make sure things are done right, using the finest materials and repair techniques with work done to the highest industry standards. Our goal is to make your biggest headaches, be they residential or commercial, "like it never happened".

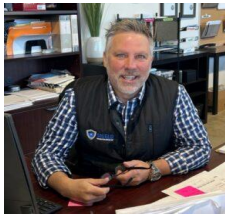

CUSTOMER SERVICE

Our customer service group has years of front-line experience. They will work with you to understand your problem, assess the need, and get one of our estimators on location as soon as possible. If you have any questions about invoicing or service scheduling, they can help you out.

PRINCIPALS

Todd Ivanochko

Todd has over two decades hands-on experience selling work and managing employees, projects, and vendor relations in the Edmonton foundation repair industry. He has assessed over 4,000 homes and businesses over his career. With architectural and business marketing diplomas from NAIT, Todd has a lifetime of related experience relevant to any manner of foundation repair project.

Tim Wilcox

Tim has 25 years of construction experience including foundation repair and waterproofing, basement replacements, and lifting and levelling structures, both residential and commercial. He's on the front lines with our crews every day overseeing projects, labour and materials and making sure the work is being done safely and efficiently.

Tammy Ivanochko

Tammy has 25 years of experience in customer service, administrative support, and office management with a background in construction, oil and gas and engineering. Tammy knows what it takes to do the job right and provide a world-class customer experience.

Commercial or residential, we thrive on projects that most people will walk away from.

SERVICE OFFERING

WE'VE GOT THIS

Decades of experience with both residential and commercial foundation related repairs have given us the expertise to take on almost any project, even those of more sensitive properties such as historical buildings.

Shield Foundation Repair can inspect all areas around your foundation and check if there are any major or minor basement leaks and possible entry points for water. With a transferable lifetime warranty, you can trust Shield with your foundation repair.

PROTECT WHAT MATTERS MOST

THE BOTTOM LINE

Whether your most valuable asset is your home, your business or bit of both, when it comes to protecting things that really matter, you can rely on SHIELD to put things right. Our team of experienced and knowledgeable pros will listen to your problems, guide you through the restoration process and make sure things are done right – the first time.

From an idea that customers deserved the same high level of service and respect they have come to expect from every service provider they do business with, we have built a company that provides a comprehensive suite of services spanning **commercial and residential foundation repair, concrete repair and restoration, house moving, lifting and leveling, and inspection services**, to mention a few.

We have worked hard to acquire safety, governmental and building certifications to handle almost any task with the utmost adherence to safety and health regulations. No matter the project, no matter the size or scope, **"We've got this."**

Shield is based in **Edmonton, Alberta**, with a head office on Argyll Road. We created a space where you can visit any time to discuss your project. Our team can't wait to meet you!
